

Girls Incorporated of the Northern Sacramento Valley, founded in 2006, is an affiliate of Girls Incorporated, which serves girls across the United States and Canada. Girls Inc. NSV is all about empowering local girls. We serve Shasta and Tehama county girls, ages 6 to 18, by offering a wide range of in-school, after-school and extracurricular programs. These research-based programs build girls' self-esteem, transform their views of themselves, and help them recognize their potential as leaders, friends, innovators and independent thinkers. Girls Inc.'s mission is to inspire girls to be “strong, smart and bold”

Girls Inc. NSV would not be able to function without the generous support of community members and corporate contributions. With your help, we can increase the number of girls we serve, train staff to deliver programs, and continue to provide resources and support for North State girls.
